## ARTIFICIAL ACER MAPLE DELUXE

### ASSEMBLY MANUAL

#### UNPACK THE PACKAGE

Unpack the package and check the product for any damage.

#### BEGIN THE ASSEMBLY

Place the main stem on a flat surface. Insert the loose branch into the notch in the middle of the main stem. Press firmly. Secure the branch with the provided screw.

#### USE THE WOOD PASTE

Tighten the supplied screw (If included) and use the supplied wood paste to mask the transition between the main trunk and the side branches. Do this with gloves on and add a drop of water to the paste before using it.

Once the wood paste has dried, it will have the same color as that of the main trunk.
