BAY LAUREL DELUXE

ASSEMBLY MANUAL

UNPACK THE PACKAGE

Unpack the package and check the product for any damage.

BEGIN THE ASSEMBLY

Place the main stem down and start assembling the loose branches. All branches are numbered and should match the holes in the main stem. Secure the branch with the provided screw.

USE THE WOOD PASTE

Tighten the supplied screw (if included) and use the supplied wood paste to mask the transition between the main trunk and the side branches. Do this with gloves on and add a drop of water to the paste before using it.

Once the wood paste has dried, it will have the same color as that of the main trunk.
